Step 1

Pick up 5b. Leaving an 8" tail, tie a knot with the tail end to form a circle. Go through the first bead added.

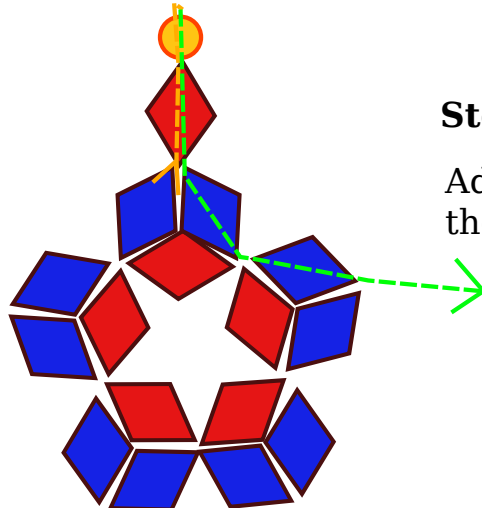

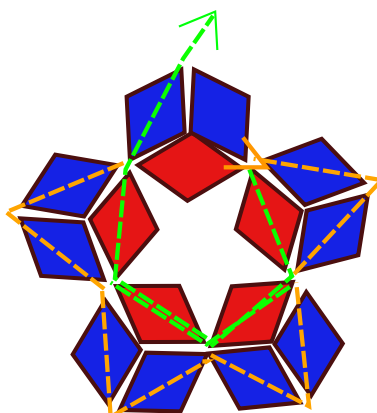

Step 2

Add 2a. Go forward through the bead from where you exit and the next one.

Step 3

Repeat step 2 another 4 times. When the last one is complete, weave your way to the top of the first point.

Step 4

Add 1b, 1c. Go back down the b bead and the righthand a bead. Go up the next a bead.

Step 5

Repeat step 4 another 4 times. To finish weave both ends of the line to the same c bead at a point. This line is used to tie the star to the tree.
